* Editor section *Information Storage: Basic and Applied.*

Aims and Scope

The *Journal of Magnetism and Magnetic Materials* provides an important forum for the disclosure and discussion of original contributions covering the whole spectrum of topics, from basic magnetism to the technology and applications of magnetic materials and magnetic recording. The journal encourages greater interaction between the basic and applied subdisciplines of magnetism, with short but comprehensive review articles, a rapid publication channel with *Letters to the Editor*, and a section *Information Storage: Basic and Applied* on all topics in magnetic and magneto-optic recording media and processes – in addition to full-length contributions.

Abstracted/indexed in:

Current Contents: Physical, Chemical and Earth Sciences; EI Compendex Plus; Engineering Index; INSPEC; Metals Abstracts; Physics Briefs

Subscription Information 1995

Volumes 138–149 of the *Journal of Magnetism and Magnetic Materials* (ISSN 0304-8853) are scheduled for publication. (Frequency: monthly, except semimonthly in January, March, May, July, September and November; total 18 issues.)

Prices are available from the publishers upon request. Subscriptions are accepted on a prepaid basis only. Issues are sent by SAL (Surface Air Lifted) mail wherever this service is available. Airmail rates are available upon request. Please address all enquiries regarding orders and subscriptions to:

Elsevier Science B.V.
Order Fulfilment Department
P.O. Box 211, 1000 AE Amsterdam
The Netherlands
Tel. +31 20 4853642, Fax: +31 20 4853598

Claims for issues not received should be made within six months of our publication (mailing) date.

US Mailing notice – The *Journal of Magnetism and Magnetic Materials* (ISSN 0304-3885) is published monthly, except semimonthly in January, March, May, July, September and November (total 18 issues) by Elsevier Science B.V., Molenwerf 1, P.O. Box 211, 1000 AE Amsterdam, The Netherlands. Annual subscription price in the USA is US$ 3455 (valid in North, Central and South America only), including air speed delivery. Second class postage paid at Jamaica, NY 11431.

USA Postmasters: Send changes to Journal of Magnetism and Magnetic Materials, Publications Expediting, Inc., 200 Meacham Avenue, Elmont, NY 11003. Airfreight and mailing in the USA by Publications Expediting.

♾ The paper used in this publication meets the requirements of ANSI/NISO 239.48-1992 (Permanence of Paper).

Special regulations for authors – Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.

Special regulations for readers in the USA – This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the US Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. The fee indicated on the first page of an article in this issue will apply retroactively to all articles published in the journal, regardless of the year of publication. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the Publisher for such copying.

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein.

JOURNAL OF MAGNETISM AND MAGNETIC MATERIALS

Instructions to Authors

Submission of papers

Manuscripts (one original + two copies), should be sent to the Editor or one of the Associate Editors (see addresses on inside front cover). Contributions may also be submitted to an Advisory Editor who is familiar with the research presented, in which case one copy plus the original figures should be sent simultaneously to the Editor, A.J. Freeman. Papers for the section *Information Storage: Basic and Applied* should be submitted to one of the appropriate Editors as indicated on the inside front cover. *Letters to the Editor* should be sent, preferably by fax, either to A.J. Freeman (+1-708-491-5082) or to I.A. Campbell (+33-1-6941-6086), while the original with figures should be mailed to the Publisher (see address opposite), preferably with the source file included on disk. Letters may not exceed six pages when printed and will be given priority in both the refereeing and production processes. The faster production schedule may preclude sending proofs of letters to authors.

Original material: Submission of a manuscript implies it is not being simultaneously considered for publication elsewhere and that the authors have obtained the necessary authority for publication.

Manuscript preparation

All manuscripts should be written in good English. The paper copies of the text should be prepared with double line spacing and wide margins, on numbered sheets. See notes opposite on the electronic version of manuscripts.

Structure. Please adhere to the following order of presentation: Article title, Author(s), Affiliation(s), Abstract, PACS codes and keywords, Main text, Acknowledgements, Appendices, References, Figure captions, Tables.

Corresponding author. The name, complete postal address, telephone and fax numbers and the e-mail address of the corresponding author should be given on the first page of the manuscript.

PACS codes/keywords. Please supply one or more relevant PACS-1995 classification codes and about 5 keywords of your own choice for indexing purposes.

References. References to other work should be consecutively numbered in the text using square brackets and listed by number in the Reference list. Please refer to the more detailed instructions for examples.

Illustrations

Illustrations should also be submitted in triplicate: one master set and two sets of copies. The *line drawings* in the master set should be original laser printer or plotter output or drawn in black india ink, with careful lettering, large enough (3–5 mm) to remain legible after reduction for printing. The *photographs* should be originals, with somewhat more contrast than is required in the printed version. They should be unmounted unless part of a composite figure. Any scale markers should be inserted on the photograph itself, not drawn below it.

Colour plates. Figures may be published in colour, if this is judged essential by the Editor. The Publisher and the author will each bear part of the extra costs involved. Further information is available from the Publisher.

After acceptance

Notification. You will be notified by the Editor of the journal of the acceptance of your article and invited to supply an electronic version of the accepted text, if this is not already available.

Copyright transfer. In the course of the production process you will be asked to transfer the copyright of the article to the Publisher. This transfer will ensure the widest possible dissemination of information.

Electronic manuscripts

The Publisher heartily welcomes the receipt of an electronic version of your accepted manuscript. If there is not already a copy of this (on diskette) with the Journal Editor at the time the manuscript is being refereed, you will be asked to send a file with the text of the accepted manuscript directly to the Publisher by e-mail or on diskette to the address given below. (When e-mailing a non-ASCII word-processor file, you should encode it, e.g. with UUENCODE or BinHex, so as to retain all formatting codes.) The name and version of the word-processing program and the type of operating system should always be indicated. Please note that no deviations from the version accepted by the Editor of the journal are permissible without the prior and explicit approval by the Editor. Such changes should be clearly indicated on an accompanying printout of the file.

Author benefits

No page charges. Publishing in the *Journal of Magnetism and Magnetic Materials* is free.

Free offprints. The corresponding author will receive 50 offprints free of charge. An offprint order form will be supplied by the Publisher for ordering any additional paid offprints.

Discount. Contributors to Elsevier Science journals are entitled to a 30% discount on all Elsevier Science books.
